

MOBILE ROTATING PULVERIZERS

PULVERIZE WITH POWER & SPEED

With the MRP, users can take on diverse primary and secondary demolition projects with one, versatile tool. A short center of gravity and 360-degree rotation gives the MRP optimal maneuverability, while the jaw's design facilitates improved penetration and rapid material downsizing. Dual rotation motors offer superior holding power and durability, and replaceable wear areas encourage longevity and minimized maintenance.

MOBILE DEMOLITION PROCESSORS

PROVEN CRUSHING & CRACKING POWER

The LaBounty Mobile Demolition Processors (MDP) is a highly powerful attachment for crushing and processing concrete in both primary and secondary demolition. The MDP provides **unmatched power-to-weight** for crushing the hardest concrete with smaller excavators, as compared to the competition. With patented Swift Lock Teeth makes maintenance quick and easy. The MDP design is based on the time-tested LaBounty shear and carries forward the legendary performance and durability that only LaBounty can deliver.

Shown with CP jaws. Both CP and CC jaws are available.
